Shoulder Arthroplasty

With 191 Illustrations, 30 in Full Color
To our families
for all of their support and understanding
The indications and use of shoulder arthroplasty has dramatically increased over the last decade, and this trend will continue in the future. The average age of our population is increasing, yet there is a strong desire to remain active and viable. The majority of people will not accept limitation of a joint function that compromises their lifestyles if a reasonable surgical solution is available.

Our knowledge of disease processes has broadened and improved our understanding about how best to manage these problem's clinically. Technology and innovation have provided us with options that were not possible before. However, a successful shoulder arthroplasty depends not only on knowledge and modern technology but also on sound clinical judgment, accurate surgical technique, and appropriate postoperative rehabilitation.

This book provides a comprehensive approach to dealing with the most common indications for shoulder arthroplasty. In addition, it provides insight into some of the more complex problems. Detailed information concerning preoperative evaluation, approaches, technology, surgical technique, and postoperative therapy will allow the surgeon to make decisions that will help his patient remain active.

We thank the contributing authors for their work and commitment to this project. We appreciate the time they took from their practices and more importantly their families to complete this volume and provide an extraordinary text.

Contents

Preface ................................................................. vii
Contributors ....................................................... xi

1 Surgical Approaches and Preoperative Evaluation ....... 1
   Kevin J. Setter, Ilya Voloshin, and Theodore A. Blaine

2 Total Shoulder Replacement: Humeral Component
   Technique .......................................................... 21
   William N. Levine and Steven Aviles

3 Glenoid Component Preparation and Soft Tissue
   Releases ............................................................. 37
   Kevin J. Setter, Ilya Voloshin, and Christopher S. Ahmad

4 Glenohumeral Inflammatory Arthritis: Special Issues ...... 63
   Ian G. Kelly and Angus D. MacLean

5 Arthroplasty for Proximal Humerus Fractures,
   Nonunions, and Malunions ...................................... 86
   Edward W. Lee and Evan L. Flatow

6 Revision Shoulder Arthroplasty and Related
   Tendon Transfers ................................................. 117
   Ilya Voloshin, Kevin J. Setter, and Louis U. Bigliani

7 Arthroplasty and Rotator Cuff Deficiency ..................... 149
   Gregory P. Nicholson

8 Rehabilitation of Shoulder Arthroplasty ....................... 167
   John Basti

Index ................................................................. 209
Contributors

Christopher S. Ahmad, MD  
Assistant Professor, Department of Orthopaedic Surgery, Columbia University Medical Center, New York, NY 10032, USA

Steven Aviles, MD  
Third-Year Resident, Center for Shoulder, Elbow and Sports Medicine, Columbia University Medical Center, New York, NY 10032, USA

John Basti, PT  
Lecturer, Department of Orthopaedics, Columbia University, New York, NY 10032, USA

Louis U. Bigliani, MD  
Frank E. Stinchfield Professor and Chairman, Department of Orthopaedic Surgery, Columbia University Medical Center, New York, NY 10032, USA

Theodore A. Blaine, MD  
Assistant Professor, Department of Orthopaedic Surgery; Associate Director, The Shoulder Service, New York Orthopaedic Hospital, Columbia University Medical Center, New York, NY 10032, USA

Evan L. Flatow, MD  
Lasker Professor of Orthopaedic Surgery, Chief of Shoulder Surgery, Department of Orthopaedic Surgery, Mount Sinai Medical Center, Mount Sinai School of Medicine, New York, NY 10029, USA

Ian G. Kelly, BSc, MB, ChB, MD, FRCS(Edin), FRCP(S Glas)  
Consultant Orthopaedic Surgeon, Honorary Clinical Senior Lecturer, University of Glasgow; Royal Infirmary, Glasgow G4 0SF, Scotland

Edward W. Lee, MD  
Clinical Shoulder Fellow, Department of Orthopaedic Surgery, Mount Sinai School of Medicine, New York, NY 10029, USA
